Firstname/Name: _____

Date: _____ Size / min. 140 - 210 cm Wight/ Kg 45 - 110

Adress/E-Mail: _____

I confirm, Mr./Ms. _____ that I have before the Ninebot Tour a detailed briefing on: Function and instruction, insurance law regulations, helmets instruction organizer, safety instructions and instruction received under instructions and have understood

The participant is obliged to inform the tour guide if he had a serious accident within the last 12 months (eg broken bones, torn ligaments, concussion, etc.), was or is under medical treatment because of a serious illness (eg heart, spine) , Intervertebral discs, high blood pressure, organ ailments, etc.) had suffered or is suffering from a mental illness (including drugs, disturbance of consciousness, etc.) has taken alcohol or drugs, does not suffer from dizziness, imbalance, is pregnant!

Basic operation of the E-unit, Ninebots and K1: Operation is performed standing on the platform. The Ninebot is a single-axle electric motor vehicle with an electronically regulated automatic balance.

To start, the driver carefully shifts his body weight forward. For braking, the driver leans backwards, at low speeds below 6 km / h is enough for braking a simple straightening, so that the platform is back in the horizontal plane.

At higher speeds, active backward leaning or pulling on the handlebar must activate the brakes. The cornering is intuitive by moving the handlebar to the left or right, which works like a joystick.

While riding, both feet must always remain on the platform, if possible above the axle. Both hands should be left on the handlebars for safety reasons. The maximum speed of the Ninebot is 20 km / h.

1. The participant acts responsibly and at his own risk. He is aware of the dangers and risks that result from having little or no experience with the Ninebot. The following safety instructions must be observed:

- a) Never drive backwards as there is an increased risk of accidents!
- b) Do not move the handlebar out of position when getting on and off!
- c) Drive at a suitable speed, you should pay attention to bumps in the ground!
- d) Pay particular attention to other drivers, especially if they are trying to drive.
- e) 2m distance to the front man is to be kept!

Contract of carriage / disclaimer / privacy policy

2. The participant must follow the instructions of the tour guide / instructor. In case of violation of these rules, the organizer has the right to exclude the participant from the event. A refund of the price is excluded.

3. The participant shall bear the civil and criminal responsibility for all damages caused by him, including personal injury, damage to property and financial loss within the group of participants, to third parties, as well as to the property of the organizer. The participant releases the organizer from any liability for such damages, unless these are demonstrably based on intent or gross negligence of the organizer. (For underage participants with a valid driver's license, the parents or guardians are similarly liable.) The participant hereby renounces all claims and rights of action or recourse against the organizer, his or her legal successors and dependents Unless this damage event was caused by intent or gross negligence of the organizer.

4. The participant assures that he is physically and mentally able to participate in the event and that he

- at least 140 cm, at most 210 cm, min. 45 kg, maximum weight 110 kg
- has no physical disability or illness that does not allow free standing without aids
- has no mental disability or illness that causes the immediate or even temporary loss of
- Affects physical control (eg, epilepsy) or affects the sense of balance
- has not consumed any means affecting voluntary volition (eg drugs, alcohol)
- has personal liability insurance and is not pregnant.

5. The participant of the Ninebot Tour must have at least a moped test certificate (from 15 years) or a driver's license. Minors (aged 15 and under 18 years of age) require the consent of their parents or legal guardian. The participant moves with the Ninebot of the organizer on public roads and guarantees compliance with the StVO. The deductible for damage to our property and to third parties, if this damage has been caused by the participant, is 500, - EUR. The vehicles are civil liability and comprehensive insurance.

6. For security reasons there is a helmet obligation at events of the company VIPott.

7. The participant agrees to the storage of the data and the archiving of this declaration in physical or digital form. Recordings of the tour / event may be published on the digital media.

8. The place of jurisdiction is Hattingen

As far as legally permissible, I as a participant release the organizer as well as the holder of the relevant Ninebot from any liability that goes beyond the lump sum liability insurance for the participant.

Insofar as third parties derive claims from my accident, I release the organizer and the holder from the claim (insofar as legally permissible) insofar as the claim by the third party (s) is no longer covered by the insurance of the organizer or the holder, I was advised of the opportunity to inspect the insurance documents with the organizer.

I confirm that I have read the text extensively and that all the questions related to my Ninebot tour have been satisfactorily answered during the comprehensive briefing.

After the Ninebot Tour:

I hereby certify that the tour I completed was done without incident. I have suffered no injuries or impairments and feel well.
